You are kindly invited to attend the **Information Society - IS 2006 multiconference**, which will take place **from October 9 to 14** at **Jožef Stefan Institute** in Ljubljana. The multiconference will present important achievements of the information society, focusing on the exchange of ideas and concrete proposals. It will consist of nine conferences:

- **BIOMA 2006 - The 2nd International Conference on Bioinspired Optimization Methods and Their Applications**
- **Borderline Cognitive Sciences / Science about Religion**
- **Cognitive Sciences**
- **Collaboration and Information Society**
- **Data Mining and Data Warehouses (SiKDD 2005)**
- **Development and Reengineering of Information Systems**
- **Education in Information Society**
- **Intelligent Systems**
- **Language Technologies**

The information society experts are warning that we are in the middle of dramatic changes caused by the adoption of information technology by all levels of the society, which the general public and the political leadership are unaware of. Therefore it is crucial that we disseminate the knowledge of the 'brave new world', its advantages and disadvantages.

The participants are invited to presents new developments and achievements in their areas of interest. They may talk about the situation in their institutions, about the social and technological development of the country, the attitude of the government or the direction Slovenia should take regarding the information society.

Each conference has its own deadline for submission of papers with the latest being September 25 2006. The papers can be in English or in Slovene, depending on the conference. They may be up to four pages in length.

All the information on the multiconference can be found at <http://is.ijs.si/> and the information on the specific conferences at http://is.ijs.si/conf_slo.html. All questions should be addressed to the organization committee or contact persons of the specific conferences. Photos from the Information Society 2005 are available at <http://is.ijs.si/is/is2005/pictures/gallery/index1.htm>.
