**Predstavitev umetniškega procesa  
»Znamenja znanja« Jirija Kočice/  
Presentation of the art project  
»Signs of Science« of the artist Jiri Kočica**

Torek/Tuesday, 26. 11. 2013, ob/at 17<sup>h</sup>

Velika predavalnica na Kemijskem inštitutu/  
Lecture Hall at the National Institute of Chemistry  
Hajdrihova 19, Ljubljana

**17.00: Invited lecture: Dr. Ellen Levy**

*Ellen K. Levy, PhD, is a New York-based interdisciplinary artist and educator. She is Special Advisor on the Arts and Sciences at The Institute for Doctoral Studies in the Visual Arts and will be leading a seminar on art and neuroscience at The New School of Social Research (NY). She is Past President of the College Art Association (2004-2006), with expertise in the interface between art and science ([www.complexityart.com](http://www.complexityart.com)). Ellen Levy has exhibited her work widely, both in the US and abroad at galleries and museums of science as well as art. In 1985 she received an arts commission from NASA. She was a recipient of an AICA award (1995-1996) and was a Distinguished Visiting Fellow of Arts and Sciences at Skidmore College in 1999, a position funded by the Luce Foundation. She has published in such journals as Leonardo, Perspectives in Biology and Medicine, Art Journal, Endeavour and Frontiers of Human Neuroscience and convened many panels on the intersections of art and science. Lecture will be in English.*

**17.45: Tatjana Pregl Kobe: Predstavitev dela Jirija Kočice/  
Presentation of the artist's work of Jiri Kočica**

*Jiri Kočica je diplomiral na Akademiji za likovno umetnost v Ljubljani l. 1991 in specializiral kiparstvo l. 1993. Od takrat naprej aktivno sodeluje v aktualnem umetniškem dogajanju s številnimi razstavami doma in v tujini kot tudi s teoretskimi prispevki v strokovnih in poljudnih revijah. Bil je eden od pobudnikov prenove nekdanjih zaporov na Metelkovi v Mladinski hotel Celica, je avtor več javnih skulptur (Grosuplje, Pohorje, Ljubljana) in avtor ter soavtor več monografij. Leta 2004 je prejel nagrado za kiparstvo županje mesta Ljubljane. Pri svojih projektih pogosto povezuje umetnost z znanstvenimi dognanji ter raziskuje relacije iz vidika etičnih vprašanj in civilizacijskih vrednot. Predstavitev bo potekala v slovenskem jeziku.*

**18:00: Druženje s pogostitvijo in ogledom Preglovega  
raziskovalnega centra Kemijskega inštituta/  
Gathering and visit of the Pregl research centre**

Vljudno vabljeni! Kindly invited!
