

## 15<sup>th</sup> CFGBC Symposium

15<sup>th</sup> June 2020

Virtual symposium, Ljubljana

- 13:00 – 13:05** Welcome speech
- 13:05 – 13:40** **Thomas O. Eichmann**, University of Graz, BioTechMed-Graz, Austria  
*Height & Weight - Comprehensive ion mobility-mass spectrometry paves the way to exceptional selectivity in lipid identification*
- 13:40 – 14:00** **Toni Petan**, Jožef Stefan Institute  
*Lipid droplets manage stress and inflammation in cancer*
- 14:00 – 14:20** **Tadeja Režen**, University of Ljubljana, Faculty of Medicine  
*Transcriptional and metabolic rearrangements in liver fibrosis*
- 14:20 – 14:40** **Cene Gostinčar**, University of Ljubljana, Biotechnical Faculty  
*Genomics, complex phenotypes and non-model organisms: A tale of promises and caveats*
- 14:40 – 15:00** **Maja Zagorščak**, National Institute of Biology  
*Cultivar-specific transcriptome and pan-transcriptome reconstruction of tetraploid potato*
- 15:00 – 16:00** Virtual poster session
- 16:00 – 16:20** **Vesna Kokondoska Grgich**, Kemomed d.o.o  
*New trends in genomics and transcriptomics*
- 16:20 – 16:40** **Tine Tesovnik**, University Medical Centre Ljubljana  
*Extracellular vesicles and their miRNA in type 1 diabetes*
- 16:40 – 17:00** **Ario de Marco**, University of Nova Gorica  
*Total and functional diversity of pre-immune libraries of ligands*
- 17:00 – 17:20** **Maja Pohar Perme**, University of Ljubljana, Faculty of Medicine  
*Relative survival analysis*
- 17:20 – 17:55** **Klementina Fon Tacer**, St. Jude Children's Research Hospital, Memphis, USA  
*Crossroads of Cancer and Gametes: Emerging Roles of the MAGE Protein Family in Stress Adaptation*
- 17:55 – 18:00** Closing remarks
