

KEMIJSKI INŠTITUT

VABILO / INVITATION

na predavanje podjetja Protochips, s častitljivima govorcema, ki sta na čelu inovacij na področju *in-situ* elektronske mikroskopije (TEM). / to a lecture by Protochips, featuring two distinguished speakers who are at the forefront of innovation in the field of *In-situ* Transmission Electron Microscopy (TEM).

Sreda, 29. novembra 2023, ob 13.00, Velika predavalnica

Wednesday, 29th November 2023, at 1:00 pm, Great Lecture Hall

Mr. Simon Ma

VP of Global Sales,

Protochips, Morrisville, USA

A Dazzling Exposé of the *In-Situ* Marvels Unleashed by Protochips

Dr. Nynke A. Krans

Applications Scientist,

Protochips, Morrisville, USA

**Elevating Material Inquiry: Unleashing Protochips' Atmosphere AX
In-Situ Brilliance Enhanced by Cutting-Edge Machine Vision**

Osrednja tema predavanja bo preboj na področju *in-situ* TEM tehnologije, kjer je Protochips v ospredju inovacij. / The focus of this captivating lecture will be the groundbreaking advancements in *in-situ* TEM technology, a field where Protochips has been leading the way.
