

CTGCT

DAYS 2025

15th to 17th September, Ljubljana

[REGISTER](#) to join us at CTGCT Days 2025! A 3-day event in Ljubljana, Slovenia, organized by the Centre for the Technologies of Gene and Cell Therapy, spotlighting breakthroughs in gene & cell therapies (GCT) and their clinical translation.

CTGCT Conference - Cell Therapy (15th-16th September) with 4 sessions and a round table on *Regulatory and Clinical Pathways for GCT*.

Gene H Conference - Gene Therapy (17th September) with 2 sessions and a round table on *Bridging Innovation and Commercialization in GCT*.

Renowned experts in GCT from institutions from around Europe and young researchers will present their work in different sessions. **Participate with a poster contribution**, submit your [abstract to this form](#).

If you would like to attend in person, [REGISTER HERE](#) now (30 spaces left).
Registration fee: 150 €

You will get free access to workshops and demonstration organized by Accela on innovative technologies for biomedical research. [Learn more](#).
